## **DETAILED ACTION**

### ***Specification***

The disclosure is objected to because of the following informalities.

On page 12, lines 7 and 10: "vanes 40" and "wall section 40" are confusing since it appears that the Applicants are referring to the same structure. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 21 and 6-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 21, it is unclear how the body section "is operable to release a dose of viscous active substance from the reservoir." The claim is incomplete because the structure of the body section that enables release of a dose of the active substance is not recited. Is the structure the ramp surfaces (38a, 38b) or vanes (40) or apertures (33, 39) or slot 23 (see pages 11 (lines 20-31) and 12 of the Specification)?

### ***Allowable Subject Matter***

Claim 21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claims 6-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
